## **DETAILED ACTION**

### ***Specification***

The disclosure is objected to because of the following informalities:

On page 3, line 15, "cf." is unclear as to its meaning. On page 3, line 29, "viz." is unclear as to its meaning. On page 4, line 20, the phrase "bird is larger why it is" needs minor grammatical correction. On page 6, lines 20 and 21, the phrase "the poultry 4 is downwards step by step" needs minor grammatical correction. On page 4, lines 29 and 30, "poultry has fallen asleep and this continues" is unclear as to what "this" means, and it appears that "has" should be changed to --have--. On page 4, line 32, the phrase "As regards safety" should be changed to --In regards to safety--.

Appropriate correction is required.

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "a helical conveyor interacting with a horizontal, telescopic conveyor" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet,

and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### ***Claim Rejections - 35 USC § 112***

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 4, the phrase "by means of" is an improper means statement, in that, the claimed "means" lacks a functional statement. In claim 1, line 5, "the influence" lacks prior antecedent basis in the claims. In claim 5, line 1, "cf." needs to be deleted. In claim 6, line 3, "viz." needs to be deleted.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 2 and 5 are rejected under 35 U.S.C. 102(e) as being anticipated by Grimsland et al. (US Patent 6,623,347). Grimsland et al teach a method for gas stunning of poultry for slaughter arriving at the poultry slaughterhouse. The animals are conveyed successively through a stunning chamber, and the gas for stunning the animals is adjusted by reducing or prolonging the conveying time. Regarding claim 2, the cages are lowered and can be kept at various vertical levels. In regards to claim 4, the gas concentration can be adjusted to various levels.

#### ***Allowable Subject Matter***

Claims 3 and 5-8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
